Important Information Regarding Physical Education Courses

California Legislature passed legislation limiting the enrollment of high school students in physical education classes. Delta College limits the percentage of high school students to 5% in any one physical education course. As a result, **very few** high school students will be eligible to enroll in physical education courses at the College. Therefore, students should plan on enrolling in physical education classes at their high school and seek only college enrichment courses at Delta College.

Only students officially enrolled during the registration cycle **before** the term begins will be allowed to attend physical education classes. **Under no circumstances will students be permitted to register for any physical education courses once the term begins.**
